CONTRIBUTIONS & CHARGES YEAR 10

An Independent Public School

Information for Parent/Guardians—2017 Contributions and Charges

The Government provides a comprehensive education for all students throughout Western Australia and Government funding of schools accounts for a significant part of the State budget. Government funding is provided to schools for the operating costs associated with the education of students, including the provision of salaries for teaching and administrative staff, school buildings and facilities and certain materials.

The financial support of every family plays a major part in providing extra resources that extend the school's capacity to broaden and extend the learning experience for all students. The quality of the schools programs is maximized when each family makes its contribution and assists in supplementing funds gained from both State and Commonwealth Governments.

Under the Student Centred Funding model introduced in 2015, funding is allocated to schools based on the learning needs of students and school characteristics. It delivers funding for each student enrolled and additional funding for students needing extra support, rather than delivering funding for school types and education programs.

In accordance with requirements of the **School Education Act 1999 and School Education Regulations 2000** the Morawa DHS School Board has reviewed and endorsed the schedule of the Contributions, Charges and Personal Items Lists for 2017.

Contributions

The contributions requested are used towards the cost of materials, services and resources directly used or consumed by students in the educational program. The school can request a contribution of up to \$235.00 per student in Years 7-10. Contributions collected at Morawa DHS contribute to:

- Photocopying for class work, printed and electronic materials
- Classroom resources, science consumables, text books and reading books
- Physical Education and Art equipment
- Consumables for Technology and Enterprise

Morawa DHS asks \$235 for students in Years 7-10 for the school year.

This contribution is voluntary. It is expected that those who can afford to will make the contribution.

Charges

Where students elect to participate in extra cost optional components, compulsory charges apply. Charges apply to high cost options (called extra cost optional components) in Years 7-10 that are alternative to parts of the program covered by the contribution. Students can opt to select these.

Extra cost options are specific activities, services or facilities that schools offer for students to use or take part in. Excursions such as camps, the school photographs and school social activities are examples. Students opt to take part in these activities or use the services or facilities.

The charge associated with the provision of these activities, services or facilities covers the cost of providing the service or running the activity. The school relies on payment for the activity to occur.

Personal items

Parents are also responsible for the provision of a student's personal items. The list is detailed and provided to parents with the school contributions and charges list. These can be purchased from the Morawa Newsagency or any supplier. **Your child's Personal Items list is on the back of this information sheet.**

- Morawa District High School offers a range of payment options to assist parents.
- Morawa District High School will accommodate periodic payments from parents.
- Payments to the school can be made via Internet transfer, cash/cheque paid to the school office or by EFTPOS.

Please contact the Manager Corporate Services, Mrs Linda Jenkins for more information regarding any of the above options. Overleaf you will find information showing the maximum amount of requests as detailed above that the school would expect from parents for your child for the 2017 school year.
