

Morawa District High School

An Independent Public School

2022-2024

Sun Protection Strategy

Sun Protection Strategy

Rationale

Australia has the highest rate of skin cancer in the world. Research indicates that childhood and adolescent sun exposure is an important contributing factor to the development of skin cancer. As students are at school during times when UV radiation levels are highest, schools play a major role in minimising students' UV exposure.

Our sun protection policy has been adopted to ensure that all staff and students attending Morawa DHS are protected from skin damage caused by UV radiation from the sun. This policy is to be implemented throughout the year. The sun protection practices outlined in this policy will be applied to all school activities, including sports carnivals, excursions and camps. The policy has been developed in consultation with the whole school community.

Our commitment

Morawa District High School will:

- Inform parents of this sun protection policy when they enrol their child/children.
- Brief all new staff on the sun protection policy.
- Promote sun protection via newsletters, assemblies, daily messages, whole school activities and parent and staff meetings.
- Encourage staff to wear broad-brimmed, legionnaire or bucket hats for all outdoor activities, including yard duty.
- Encourage parents and guests to wear broad-brimmed, legionnaire or bucket style hats when participating in and attending outdoor school activities.
- Require students to wear broad-brimmed, legionnaire, cap or bucket style hats when outside.
- Direct students without a broad-brimmed, legionnaire or bucket hat to stay in an area that is protected from the sun.
- Require students to wear broad-brimmed or bucket hats, sun protective clothing and sunscreen for all camps, sports and excursions. These items will be listed on the parent information booklets.
- Require staff and students to wear a swim top for swimming (this may not be appropriate during competitive swimming).
- Review the school dress code to include sun protective items such as shirts with collars and longer sleeves, and swim tops for swimming.
- Ensure there is adequate provision of shade within the school grounds for students and staff, by planting trees and building shade structures, particularly in areas where students congregate eg. lunch, canteen, outdoor lesson areas.

MORAWA DISTRICT HIGH SCHOOL

- Encourage staff and students to use shaded or covered areas when outside.
- Ensure that adequate shade is provided at sporting carnivals and outdoor events.
- Encourage the use of SPF 30+ broad spectrum, water-resistant sunscreen by:
 - listing sunscreen as an item students are required to buy for the school year providing sunscreen in the classroom
- Incorporate sun protection and skin cancer awareness programs into the appropriate Key Learning Areas of the school curriculum.
- Review the sun protection policy annually

Our expectation

Parents/carers will:

- Ensure your child/children has a broad-brimmed, legionnaire or bucket/surfie style hat. The Cancer Council WA recommends the following hats:
 - broad-brimmed (7.5cm brim)
 - legionnaire-style
 - bucket/surfie-style (6cm brim)
- Ensure that your child/children's clothing provides adequate protection from UV radiation. The Cancer Council of WA recommends the following:
 - collars and sleeves
 - closely woven fabric
 - natural fibre
 - swim tops for swimming
- Ensure that your child/children has access to SPF 30+ broad-spectrum, water-resistant sunscreen before leaving for school.
- Act as positive role models by practising SunSmart behaviour.
- Support the school's sun protection policy and help design and regularly update the policy.

Students will:

- Be aware of the school's sun protection policy.
- Take responsibility for their health by being SunSmart.
- Comply with SunSmart rules and guidelines by wearing suitable hats and clothing.
- Use shaded or covered areas outdoors.
- Act as positive role models for other students in all aspects of SunSmart behaviour.
- Be actively involved in initiatives to protect the school community from over-exposure to the sun.
- Help design and regularly update the SunSmart policy.
- Participate in SunSmart education programs.
